this button takes you back to the **projects** or **projects+** page

1. the question mark button takes you to this help document
2. the info button takes you to a page with TicTacToe data
3. the download button lets you download the offline Java version
4. the exclamation mark button takes you to the support/feedback Discord server
5. the arrow button opens TicTacToe in a new tab, so you can play yourself

A rectangular button with a teal border and a teal background. It contains the text "NEW GAME" in teal, all-caps font.

this button creates a new game

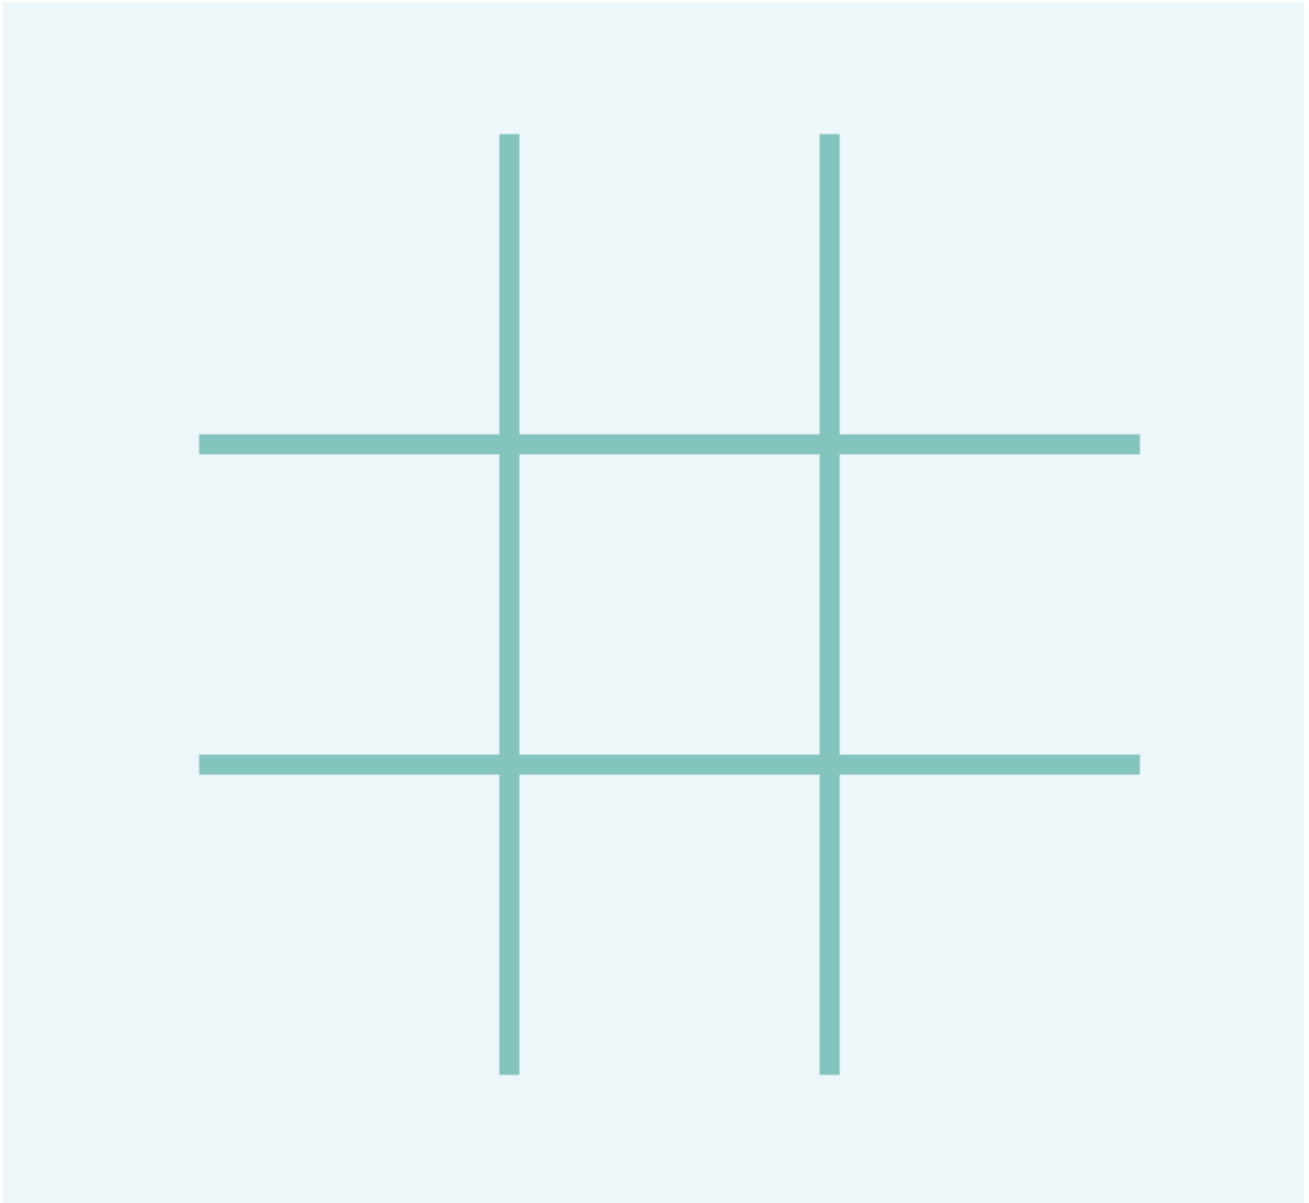

A rectangular button with a teal border and a teal background. It contains the text "ENTER GAME CODE" in teal, all-caps font.

to join a game, enter the code in this box, then press enter

## ~ the game

< Back

this button takes you back to the main menu

this is the tic tac toe board

click on an empty square to put an X or O there

whoever started the game is X

# It's your turn!

the status message tells you one of four things:

1. whose turn it is
2. who won (or if the game ended in a tie)
3. you tried to join a full game
4. no game is associated with the code you entered

gnepi

Next >

the game code is shown in the top right

click on it to copy a link to the game

when the game is over, the code transforms into the “next” button

whoever clicks it is X in the next game, and both players are redirected to the new game

## ~ accessibility

everything can be done without a mouse

just use the tab key!

the squares on the board can be selected with their corresponding number:
